Training for Mariners

Own Boat Tuition

Corfu Sea School is happy to provide qualified Instructors to teach the RYA syllabus on our client's own boats. However, the boats must be in good condition, fully seaworthy and have the following equipment in date and fully serviceable:

- Life raft
- First Aid Kit
- Lifejackets (1 for each crew member)
- Safety Harnesses (1 for each crew member)
- Flares (4 x red parachute, 6 x red hand held, 2 x orange smoke)
- Man Overboard recovery equipment (life ring and light)
- Fire Extinguishers
- Barometer
- Bilge Pump
- Bolt Croppers
- 2 x Buckets
- 2nd Anchor and Warp
- GPS
- VHF Radio
- Charts of the Area
- Pilot Book of the Area
- Tool Kit
- Engine Spares
- Navigation Lights
- Torches
- General spares
- Method for reefing both mainsail and genoa

It is also advisable to check the boat over before your Instructor arrives, especially if it has not been used for some time.

Check the engine, rigging and sails to ensure they are all working properly.

Finally, please note that it is your responsibility to ensure that the boat is fully insured and that the ship's papers (including registration documents, life raft and fire extinguisher certificates and radio licenses) are all onboard, correct and in a form acceptable to the Greek Port Police.
